The Proof is in the Results!

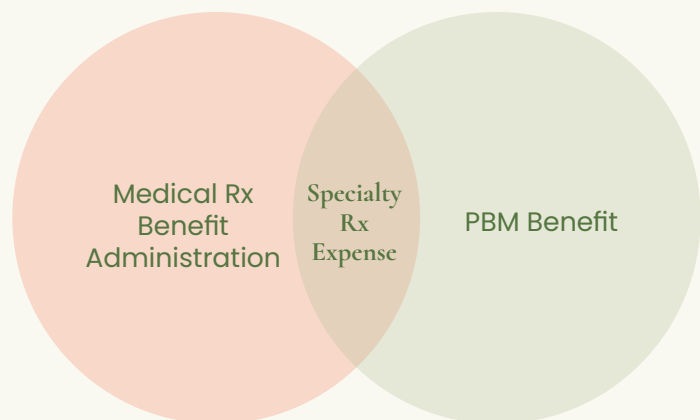

32%

**Combined Rx and
PBM savings**

Getting to the Root of the Problem

Fact: Pharmacy spend is out of control and wreaking havoc on your clients' bottom line. Employers need a more effective means of managing their pharmacy benefits. **The solution?** **Leaf Health.** Our innovative, results-driven strategies are **PROVEN.**

Leaf Health offers a unique perspective on BOTH medical and pharmacy benefits.

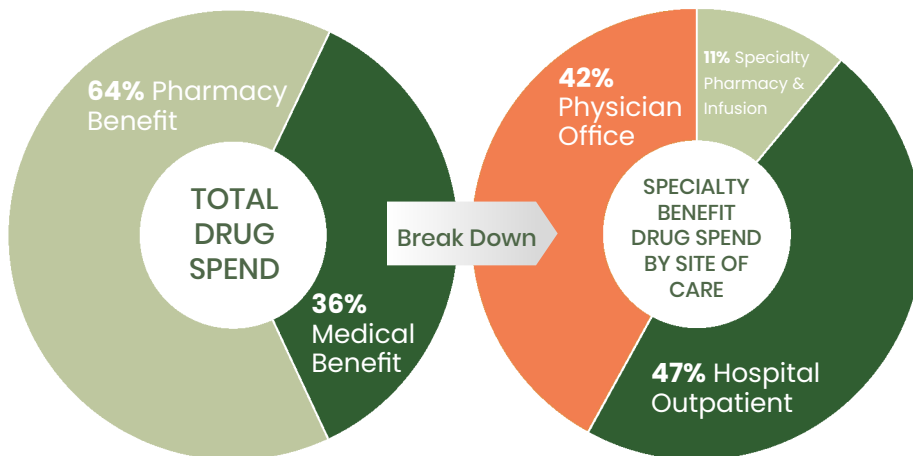

Our Comprehensive Service Offerings Include:

- ✓ PBM consulting, procurement, and benchmarking
- ✓ Audits
- ✓ Medical benefit drug expenditure strategies
- ✓ Management of emergent rebating strategies and solutions
- ✓ Rx Product Development
- ✓ Sales support and consultation
- ✓ Comprehensive healthcare and process management consulting
- ✓ myleafRx
- ✓ Consumer healthcare discount products
- ✓ Annual client summit focused on new innovative market offerings

Specialty spend could reach \$310 billion across the pharmacy and medical benefit by 2030.

Leaf Guidance and Advocacy

Analytics of Drugs Under Medical and Pharmacy Benefits

Ultra high-cost specialty drug claims are driving the cost of your client's benefit plan. Leaf supports J-Code Medical Benefit to make it easier to keep track of specific treatments and their associated costs, and Traditional PBM analysis. In both cases, we use an apples-to-apples approach to support analytics and qualitative assessments.

Contract Negotiation

PBMs price to win business and contract to secure their margins. We are there to define and protect on clear contract language and to avoid the "million dollar" clauses embedded in these agreements.

Client Growth and Retention

Earning and retaining clients is a difficult business. Leaf Health's approach allows your organization to defend and grow your pharmacy program strategies by leveraging our analytics and team member advocacy.
